EAE KNX Smart Home and Residential Solutions offers the best user experience with a wide range of products and customizable technological and stylish design of the products.

EAE's Smart Home and Residence solutions are remarkable for users and architects with a variety of materials and colors compatible with the interior, as well as providing ease of use.

Products are based on the worldwide KNX standard and enable the system to be expanded with other KNX manufactured products.

EAE group of companies have over 2,500 employees worldwide and EAE products are used in more than 100 countries. EAE Group has over 50 patents, 300 brands and 150 industrial designs.

As EAE Technology, we provide innovative and value-added solutions for KNX applications. All our products are designed, developed, manufactured and tested in our headquarters in İstanbul, Turkey. EAE Technology products are in compliance with international open standards such as KNX, DALI, TCP/IP and WiFi.

EAE Technology is a member of KNX Association and an authorized KNX training center since 2012.

TD4-KNX 4" Touch Display

The Pinnacle of Smart Control...

Step into the future of home automation with EAE Technology's KNX Touch Panel, where cutting-edge technology meets elegant design. Crafted with a capacitive touch screen that responds to your lightest touch, the touch panel transforms the ordinary into the extraordinary, placing the power of control at your fingertips.

TD4 Touch Panel Technical Specifications

Bus supply	Voltage	21V-30V DC, via the KNX bus
	Consumption	<4.5mA/24V DC, <4mA/30V DC
	Bus consumption	<120mW
Auxiliary supply	Voltage	24-30V DC
	Consumption	<86mA/24V DC, <71mA/30V DC
	Power	<2.2W
Connections	KNX	Bus connection terminal
	Auxiliary supply	KNX auxiliary connection terminal
Installation	80mm or 86mm wiring box	
Temperation	Operation	-5 °C... + 45 °C
	Storage	-25 °C... + 55 °C
Proximity Sensor	Standard 15cm, Enhance 30cm	
Dimension	86x101.3x10.5mm (32.2mm)	
Weight	0.2kg

Dimensions and Functional Elements

1 - Touch and display area

2 - Proximity sensor

3 - Colorful Strip LED bar

4 - Auxiliary supply connection terminal

5 - SD Card slot

6 - KNX Bus connection terminal

7 - Built-in temperature sensor

Capacitive touch screen

Effortless control at your fingertips. Responsive, intuitive and designed for modern living.

Internal temperature sensor

Your comfort is ensured with the built-in temperature sensor.

4 Zone thermostat control

Keep your living environment in perfect harmony by creating different climates in every corner with 4-Zone Thermostat Control.

Proximity sensor

When you approach, the proximity sensor gently wakes the panel and makes it ready for use.

RGB control

Feel how the environment changes with Lighting RGB Control—whether RGB, RGBW, or RGBCW, you have complete control over color and temperature.

Adjustable white light control

It perfects your living environment, switching from warm light to cold light and vice versa.

Touch vibration back notice

Enjoy tactile elegance...
A subtle reminder that you're in control.

Energy measurement monitoring screen

It helps you live a smart and sustainable life...

Air quality, humidity and CO2 level monitoring screen

Displays humidity and CO2 levels to keep your air clean and fresh.

With ETS configuration

You do not need to use an external panel configurator.

Miola Touch Panel Technical Specifications

SCREEN SIZE	10.1" MIOLA KNX-TP
CPU	PX30 Chipset
Memory	1GB
Hard Disk	8GB EMMC
Operating System	Android 8.0
Supply Voltage	12-30 VDC
Touch Panel	1280x800px
Microphone	Project Capacitive Touch
Speaker	1 with Echo Cancellation
Input	1x8 Ohm - 2 Watts
KNX Bus Connection	5 Digital Inputs
LAN	KNX - TP
Dual Network Connectivity	2
Max Accessory Limit	Yes
Max Room Limit	254
Intercom Standart	254

Heating-Cooling

Lighting-Shutter/Blind

Schedule, Scenes

Cloud Server

Thanks to peer to peer connection, SIP calls are made directly between devices without the need for a SIP server.

Intercom

You can use your Miola touch panel to communicate with outdoor intercom units and open apartment doors.

Mobile Integration

Manage lighting, climate, blinds, alarms, intercom, with your mobile devices. You can do anything you do with touch panel with using your smartphone.

KNX Thermostat | Switch | Socket

Thermostats

Thermostat and switching control from one point with Rosa Thermostats.

Switches

Lighting, shutter/blind, scene call, speaker and DND/MUR control with customizable Rosa keypads.

Sockets

Various color options in UK, EU and universal standards.

Inherent color tone variations are normal to be observed on bronze and gold due to anodizing surface treatment process.

Thermostats

Elegant and Minimalist Design

Rosa thermostats are designed for the needs of modern buildings. Rosa's intuitive design allows all ages to control their living space easily. New generation frameless design fits architects' expectation and getting their compliments.

Anahtarlarda dahili sıcaklık sensörü opsiyoneldir.

rosa
pictus

Independet programble buttons ...

Each folds can be programmed as independent buttons.

All in one...

Rosa offer switching and thermostat function controls from one point.

- Lighting
- HVAC Control
- Shading
- DND / MUR
- Scene Call

Brushed metal surfaces...

Rosa brushed metal thermostats contain 4 different color alternatives as natural (silver), gold, bronze and anthracite

Inherent color tone variations are normal to be observed on bronze and gold due to anodizing surface treatment process.

Unlimited color options...

All RAL codes can be applied

High quality raw materials...

7000 series aluminum is used for Rosa switch and thermostat.

Additional Heating and Cooling...

Rosa series has a built-in temperature sensor.

Rosa Thermostat has an automatic heating / cooling switching function. Additional heating / cooling units can be added to the system.

4mm tempered glass...

Conductive material coated glass surfaces are used for the Rosa Glass series.

Status LEDs...

You can control the status of lights, curtains/blinds and air conditioners in your living spaces with the status of LEDs.

Navigation LEDs...

Thanks to the navigation LEDs on Rosa, reach your thermostat and switch easily and safely in dark environments.

Customizable symbol options...

Rosa offers customized icon options with glass and brushed metal surface types.

Sockets

THERMOSTAT TECHNICAL SPECIFICATIONS

- Can be configured with ETS5.
- Serial thermostat with metal and glass touch-button
- Temperature control via digital LCD
- Internal temperature sensor (°C/ °F)
- Adjustable fan speed (1, 2, 3, Automatic)
- Multiple operation modes (Comfort, Night, Outdoor, Indoor)
- Fully automated operation feature (hot-cold transition)
- Control of all HVAC units including VRF-VRV and air conditioning devices
- PI relative, PI on-off (PWM), On/Off, Fan coil, Split unit controls
- Easy installation to 60x60 mm standard switch junctions
- 2 dependent or 4 independent programmable buttons can be programmed for various functions.
 - Switching,
 - Dimming,
 - Shutter/Blind control,
 - Value and priority assignment,
 - Scene control,
 - Status notification LED

Protection Type	IP 20	EN 60529
Safety Class	II	EN 61140

Live in Comfort!

KNX Thermostat | Switch | Socket

Thermostat

All devices in your home are under your control with Oria thermostats.

Switch

Control lights and blinds with a single press with Oria switches.

Receive temperature and humidity information via the switch, thanks to the optional temperature and humidity sensor

Socket

Socket group with eye catching design for perfect harmony.

Control is under
your fingertips...

A simple touch, unlimited comfort

Thermostats

Expandable up to 4 folds, Oria thermostat provide a wide collection of possibilities for all spaces where both thermostats and programmable switches are needed at the same time.

Oria thermostats can perform all needed operations with a single touch. Programmable buttons on Oria thermostats can control comfort and energy saving needs such as lighting, shutter/blind, scene call, speakers and panic button for you.

Certificates

EAE Technology products are and will always be in compliance with international open standards such as KNX, DALI, TCP/IP and WiFi.

KNX is the worldwide standard for home and building control. KNX offers at the same time the reliability of a consolidated system, market leader for over twenty years. (470 KNX Members, 8000 Products, 470 KNX Training Centers, 83000 KNX Partners, 190 Countries)

DALI (Digital Addressable Lighting Interface) is a protocol for digital lighting control that enables the easy installation of robust, scalable and flexible lighting networks.

EU rules restricting the use of hazardous substances in electrical and electronic equipment to protect the environment and public health.

This standard is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement. These principles are explained in more detail in ISO's quality management principles.

The EAC certifications are issued by independent EAC certification bodies and their laboratories accredited by the relevant agencies of the five members of the EAC Economic Union: Russia, Belarus, Kazakhstan, Armenia and Kyrgyzstan.
